WAS A LUCKY FIND

Material in Plenty to Make Vitrioid Brick.

MEANS NEW SCRANTON INDUSTRY

It is Something Novel and the Process of Manufacture is Interesting. Company of Well Known Business Men are Pushing the Project—The Raw Material is Inexhaustible and Very Accessible.

Announcements are so frequently made of industries to be located in Scranton that business men generally regard the news in a superfluous way and as a matter of fact, but the progress in the organization of the company which is to manufacture shale (vitrioid) brick and other like commodities near Nay Aug, has, on account of the uniqueness of the enterprise and the fact that the company means business, created considerable comment in financial circles.

The Nay Aug Shale Brick company was recently incorporated, with a capital stock of \$60,000, to manufacture paving and building brick, sewer and drain pipe and fine linings, on the plot of land near the turnpike crossing and the Winton branch of the Delaware, Lackawanna and Western road, Danmore. That the enterprise promises success is evidenced by the names of the following well-known gentlemen interested: William A. Connell, S. W. Roberts, Anson Carpenter, W. W. Van Dyke, Robert Robinson and J. H. Ganser.

RAW MATERIAL CONSIDERED.

Until very recently the manufacture of the best vitrioid brick was supposed to be possible only in localities adjacent, principally, to Syracuse, N. Y., Canton and Zanesville, O., and Galesburg, Ill. Nevertheless the raw material for the production of the article was found in the above mentioned Scranton locality which is also known as the H. W. Drinker tract of the Pennsylvania Coal company, where the plant will cover nearly three acres.

Tests of the shale have been made by prominent chemists and the result shows the material to contain the same specific qualities as the famous Galesburg brick. Considering that there is sufficient material in sight to manufacture 500,000,000 brick and that the capacity of the kilns will be 40,000 per day, the magnitude of the project can be comprehended.

New and improved machinery has been ordered, building operations will be started next week and by the middle of November it is expected to have the plant running in full blast. One hundred hands will be employed and the various vitrioid products will be delivered within a radius of several hundred miles cheaper than from any other point of manufacture.

Vitrioid brick is manufactured on nearly the same principles used in the more common article, except that they are placed in a drying oven to bake in the moderate heat of the kilns. The shale is taken from the ground, pulverized into a fine powder and mixed with water to nearly the consistency of mortar. After being moulded the process is completed by drying and baking. The bricks are kept in the kiln thirty hours and the finished product is as hard as iron, which metal is one of its parts and contributes largely to its strength.

PURE BUSINESS PROPOSITION.

The gentlemen interested in the project are sanguine of success and are not promoting the enterprise for speculation. It is a business proposition pure and simple with them and they are of the opinion that a large proportion of future building and paving operations in and adjacent to Scranton will be supplied from the Nay Aug works.

UNIFORMED K. O. P. AT FARVIEW.

Over a Thousand Knights and Friends Out for Pleasure

Number 60, Scranton Division, Uniformed Rank, Knights of Pythias, accompanied by their families and friends, were favored with delightful weather and one of the pleasantest days of the season for their excursion to Farview Saturday. It is estimated that a thousand persons made the trip from this city, and the attendance from other points swelled the number to large proportions at the grounds.

The excursionists occupied fourteen cars of the special Delaware and Hudson train, which left Scranton at 8:30 o'clock in the morning, and a large number followed on the regular train about two hours later. During the day the dancing pavilion, swings and other amusement sources, and the excellent music of the Germania band kept the throng thoroughly amused and made the day one of the most enjoyed on the mountain this summer. The success of the excursion is due in a great measure to the following committee: Chairman, Charles E. Robinson; Martin Greff, Charles DeWight, W. H. Hoffman and David Donaldson.

Scranton division No. 60 will be represented by forty-two men in the parade at Washington Aug 27, during the world's Knights of Pythias convention.

NOTED BROOKLYN, N. Y., SINGER Delights the Congregation at Elm Park Church.

Those who attended the Elm Park church last evening received a rare treat in the music line. The members of the regular choir are enjoying their vacation now, and the singing is entirely congregational. Last night, however, Organist Carter prevailed upon William R. Williams, a noted tenor singer of Brooklyn, to favor the congregation with some selections, which he kindly did in a most masterly style.

Mr. Williams is a former resident of Scranton, but left the city about twenty years ago to study music, and has since become most proficient in that line. He is at present singing in Dr. Cuyler's church, in Brooklyn, where the music is of the highest order. Last winter he sang in concert with Miss Lillian Bianvati and other noted songsters, under the direction of Walter Damrosch, at Carnegie music hall, New York.

Last evening he rendered two selections, "Holy City," by Adams, and an Aria from "The Wandering Jew," to the delight of all present. His voice has a remarkable richness and sweetness, of which he may be justly proud.
